

Montessori Canada Logo Usage Guidelines - Accredited Member School

As a Montessori Canada Accredited Member School, you may use a customized version of our official logo that reflects your Montessori Canada Accredited status. This recognition honours your commitment to delivering high-quality Montessori programs and communicates trust and reliability to your school community.

These guidelines are intended not as restrictions, but as a way to uphold the integrity of our shared mission and ensure clarity and consistency in how we represent Montessori Canada together.

Your personalized logo will include the phrase “Accredited XXXX - Current Year”, indicating the first year your school achieved accreditation, and will be updated yearly upon reenrollment in the Montessori Canada as an Accredited Member School. This logo is a symbol of your school’s achievement and should be used consistently and respectfully across your communication channels. Where you are permitted to use the logo, you are also required to update that material when you receive your new logo for that current year. If the material is permanent and cannot be replaced regularly, the logo cannot be used.

You are permitted to use your Accredited Member School logo in the following ways:

- on your school’s website, linking back to www.montessori-canada.ca
- in email signatures
- on printed materials such as brochures
- in your social media posts
- on temporary signage inside or outside your building

The logo must always appear in its original form, on a white background, without any alterations to colour, proportions, design or lettering. Please ensure that there is enough clear space around the logo for it to be legible and not visually crowded by other elements.

When appropriate, you may include the following statement to further reinforce your affiliation: “[School Name] is an Accredited Member School of Montessori Canada, demonstrating a commitment to high-quality Montessori education.”

Your logo and accreditation can not be applied to programs, campuses, locations, or initiatives that were not reviewed and/or included in the accreditation process. If you are unsure whether a specific use is permitted, please reach out for clarification.
